

A man and a woman are standing in a factory or industrial setting, looking at a tablet together. The woman is on the left, wearing glasses and a grey jacket, and the man is on the right, wearing a light blue shirt. They are both smiling and appear to be engaged in a collaborative task. The background shows industrial machinery and a bright, well-lit environment.

When it comes to the applications of our products we take a thorough approach – and we are pleased to pass on our knowledge.

We offer global consulting services, provided by staff at our Technical Service Centre unit and within our field sales organisation – from project planning and material selection to on-site advice on pre-engineering in the field.

## TANK AND APPARATUS ENGINEERING

### TANK AND APPARATUS ENGINEERING

SERVICE	€ per order
Estimation for rectangular tanks (perimeter reinforcements, cross-ribbed) and cylindrical tanks in accordance with DVS 2205	80,00
Calculations of verifiable structural analyses for DVS and tanks made of twin-wall sheets	400,00
Advice on chemical resistance (on a cost basis)	80,00 to 240,00

## PIPELINE CONSTRUCTION

### PIPELINE CONSTRUCTION

SERVICE	€ per order
Calculations of verifiable structural analyses for buried pipes, drainage pipes in landfills and shafts	400,00
Processing support in the field provided by our experts (per hour and member of staff)	100,00

# EQUIPMENT HIRE AND ACCESSORIES

---
